ABOUT ME

Passionate web developer with a strong foundation in front-end and full-stack technologies. Experienced in building responsive, high-performance websites and e-commerce solutions. Continuously learning and applying new skills in modern web development, AI literacy, and project collaboration. Proven ability to work in team environments and deliver real-world projects on time.

WORK EXPERIENCE

- **Canacon Media** MAY 2025 - PRESENT
Software Engineer Intern
 - Built a headless Shopify storefront with React and Shopify's GraphQL Storefront API.
 - Gained an in-depth understanding of Shopify's ecosystem.
 - Strengthened knowledge of React and GraphQL queries/mutations.
 - Collaborated effectively with team members.
- **Servoweb Technologies** AUG 2024 - PRESENT
Web Developer
 - Develop responsive WordPress sites from Figma mockups and client requirements.
 - Build custom themes and plugins per client requirements.
 - Optimize websites for accessibility, SEO, and front-end performance.
- **ihawp.com** AUG 2022 - PRESENT
Web Developer
 - Lead and develop independent freelance and passion projects to continuously sharpen my skills and abilities.
 - Built a headless Shopify storefront using the Storefront and Admin APIs, implementing cart, checkout, and email form. I furthered the project by adding a JWT-authenticated real-time customer support chat via Socket.IO.

TECHNOLOGIES

- **Front-End:** HTML, CSS, JavaScript, React, Tailwind, Typescript.
- **Backend:** PHP, Node.js (Express.js).
- **Query Language:** SQL, GraphQL.
- **WordPress** (Theme & Plugin Development).
- **Shopify** (Theme & Headless Development).

SOFT SKILLS

- Team Collaboration.
- Project Management.
- Time Management.
- Problem Solving.
- Communication.
- Self-Motivation.
